01:41

Download the Guide - Accessing via Android Device

Download the Guide - Accessing via Apple Device

Download the Guide - Accessing via Computer Desktop

You are not required to share location with CareVoyant Mobile (CV Mobile).

b Category 2: Learn how to Log in and Navigate CV Mobile.

## 2. CareVoyant – General Overview

\*We recommend watching the video on a separate device while you practice a visit on your phone.

c Category 3: Look at a visits and how to complete your visit documentation.

## 3. Timekeeping and Visit Documentation

Practice using your training client with a few visits in CV Mobile. If you feel comfortable with your practice client, you are ready to go! If you would like additional training, you can join a webinar or 1-to-1 training session.
